

# Autofocus | Car Rental Platform

Our project about car rental allows customers to register and login to be able book a car

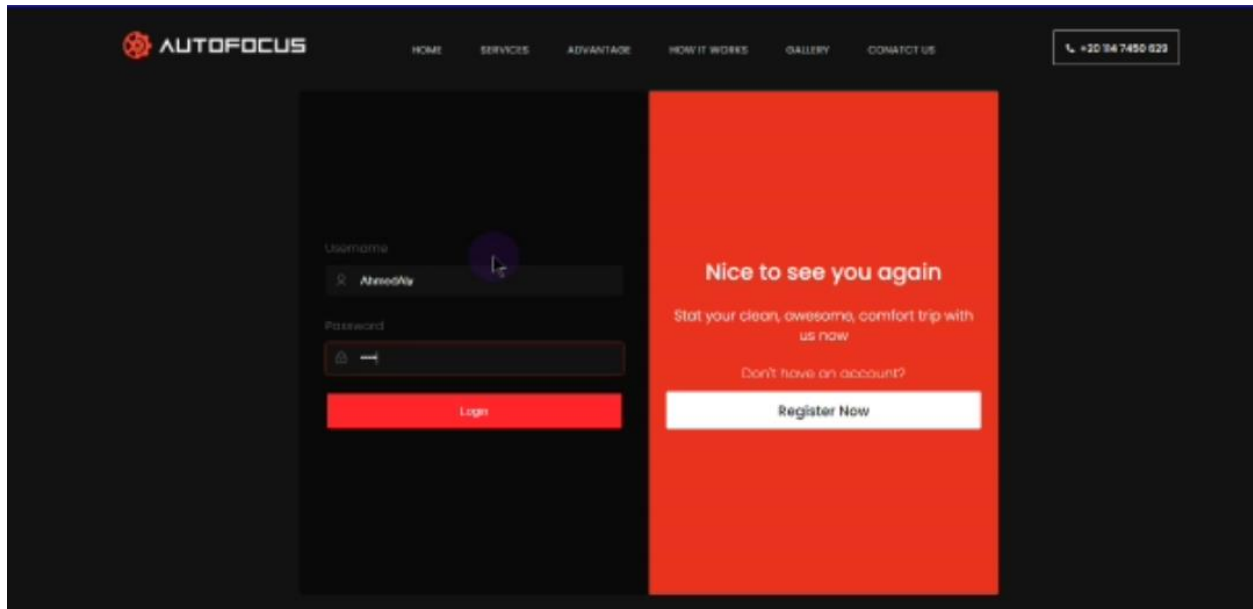

The customer can be seeing the reviews, some pictures, latest cars, see services, subscribe to follow the latest news about new cars and website advantages without register

1-Customer can be log in throw:

” Name, Password “

If name and password validation is correct throw match with database so the customer be able to book a car

2-If customer does not have account and need to book a car must be register firstly throw:

**“Name, Mobile, Password, Email “**

The screenshot shows the Autofocus website's registration page. The header includes the Autofocus logo and navigation links: HOME, SERVICES, ADVANTAGE, HOW IT WORKS, GALLERY, and CONTACT US. A phone number +20 114 7450 629 is displayed in the top right. The registration form on the left contains fields for Username (filled with 'Ahmed'), Mobile (filled with '01010101010'), Email (filled with 'AhmedAly22'), Password (filled with 'password'), and Confirm Password (filled with 'confirm password'). A checkbox for 'I agree to privacy & policy' is checked. A red 'Register' button is at the bottom. To the right, a red sidebar contains the text 'Welcome To AutoFocus', 'Start your clean, awesome, comfort trip with us now', 'already one of us?', and a white 'login' button.

3-customer can be booking a car throw:

“Data Type, Town, District, Name, Email, Mobile”
